EARMARK DECLARATION

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 23, 2009

Mr. GRAVES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of H.R. 2892, the Department of Homeland Security Appropriations Act, 2010:

Congressman SAM GRAVES (MO-6)

Department of Homeland Security, FEMA/Pre-disaster Mitigation Account—\$175,000 to the City of Maryville, MO, for Storm Siren Replacement (City of Maryville, MO, Department of Public Safety, 222 East Third Street, Maryville, MO 64468)

The federal funding I obtained for the City of Maryville in my congressional district will be used to upgrade their emergency storm siren system. The City of Maryville is the largest community in northwest Missouri, having a population of over 10,500. The community is home to Northwest Missouri State University and houses nearly all of the manufacturing industry in the region.

In recent years, Maryville has experienced a number of natural disasters, including flooding and tornadoes. The current warning system in place for the residents of the community is made up of five Civil Defense Sirens, which are extremely old and deteriorated. The city has also grown in size, which has created some "dead spots" where citizens cannot hear the warning sirens.

As such, the city will use the federal funds obtained to purchase five storm sirens. Four of the existing sirens throughout the city will be replaced, as well as one siren to be located at Mozingo Lake, a recreation and fishing destination in the region. The new sirens will be multi-directional sirens, which will double the current sound projection radius and address the community's concern with "dead spots". An up-to-date warning system is imperative to notify all the families and individuals in the region to ensure their safety.

Account: State and Local Programs

Recipient: City of Ames, Iowa

Recipient's Street Address: 515 Clark Avenue, Ames, IA 50010

Description: This project is a renovation of the current Emergency Operations Center in Ames, IA. It is necessary to accommodate updated incident command facility needs—in cases of both natural disasters and man-made

incidents. Local emergency operations centers are critical components in the nation's emergency network. The Ames, IA Center is particularly important as it is located in an important agricultural production region that is crucial to the nation's food supply; the Ames Emergency Operations Center is also located near the National Animal Disease Center, an important player in any agro-terrorism incident. Given the significance of the threat of agro-terrorism, it is important that this Center be as-up-to-date as possible in its operating capacity.
